## AMP5145

Power:  
Input 10V to 20V DC

Configuration:  
4x A/V Inputs (RCA)  
3x A/V Outputs (RCA)  
3x Wired remotes (1x Master, 2x Slaves)

Performance:  
Dolby Prologic Audio  
5.1 Encoded Audio  
4.2 Encoded Audio  
Standard Stereo L-R

Output:  
4x 45W Output  
1x 20W Output  
Sub woofer Pre-Amp (Line Output)

The **AMP5145** is the unit when it comes to 5.1 Channel surround sound in 12V. It has a built in Audio Video switching controller which allows you to connect up to 4 Audio Video inputs via the RCA line.

Then use the 3 Video outputs (stations) to view any one of the inputs independently. Two of the “stations” have their own slave remote to select which one of the four inputs you want to view and one “station” has a master controller which allows for the surround sound control and selection of which input to view.

This gives you 3 locations to be able to view any of the 4 inputs either simultaneously or independently of the other locations and one of them will have the surround sound. When it comes to the ultimate 12V surround sound system you cannot get better than Majestic.

*When it comes to the best technology, Majestic is leading the way.*
