270° for portrait or landscape viewing

Material:  
Iron

Mounting Option:  
Economic Monitor Arm  
(Wall Mount Type)

Pivot:  
180° (display)

Lift:  
406mm

Display Compatibility:  
VESA 75mm

Majestic has a large range of mounting swing arms for the LCD TV products.

The **LA-12** is a fixed arm with limited and controlled movements.

With angles such as 180° up and down and pivot of 180° left to right, you can tighten the bracket which will vary the force required to move the arm.

The arm also has a locking pin which locks the bracket in series of selected angles from 0° to 180°. You can fit the LA-10 at the end of this arm to allow you to remove the TV from the end of the arm, however the arm must remain fixed to the wall.

*When it comes to the best technology, Majestic is leading the way.*
