191.5mm

Display Compatibility:  
VESA 75/100mm

Majestic has a large range of mounting swing arms for the LCD TV products.

The LA Series, is ergonomically designed to work with multiple moving points for use with most installations whilst providing flexible movement.

With many installations having the need for the product to be in two or more places the LA Series is fully adaptable for multiple locations. With the use of the LA-10C you can fix the plates to the wall and then simply slide the LA-55-3 on or off to move the LA-55-3 to any of these locations or even mount the TV directly to the wall plate.

These brackets have been designed to be used in moving or stationary situations, with or without the TV being attached.

*When it comes to the best technology, Majestic is leading the way.*
