50mm Vesa
75mm Vesa
100mm Vesa

Extension:
Roof Mount lockable, drop to vertical
Rotation 360 Degrees

Dimensions:
240mm Length
120mm Wide
30mm Deep

The ARMR100 was specifically designed for those that require easy roof mounting with the ability to lock the TV up in place.

With easy mounting and a unique push locking mechanism the ARMR100 is the perfect bracket for those economic roof mount and drop down installations. When you drop the TV down to view it, you have the capacity to rotate the TV 360 Degrees which allows you to view it from any angle.

Excellent for those installations under cupboards, and in areas where wall space is not quite right.

When it comes to the best technology, Majestic is leading the way.
