Majestic has a range of speakers designed for all purposes, in the Marine or RV environment.

Majestic understands that clients require a high quality speaker, and yet it must be able to handle the harsh Marine environment. The SPK240 series is engineered to do exactly that, with Two-way Dual cone design, the speaker gives you the full range necessary for the impressive high frequencies whilst the extra half inch gives the improved Bass response.

With a high gloss and weather resistant finish the SPK240 series really adds class and sophistication to installation.

When it comes to the best technology, Majestic is leading the way.
